ALL CURES MADE EASY!!

HOLLOWAY'S OINTMENT.

Bad Legs, Ulcerous Sores, Bad Breasts and Old Wounds.

No description of wound, sore, or ulcer can resist the healing properties of this excellent Ointment. The worst cases readily assume a healthy appearance whenever this medicament is applied; sound flesh springs up from the bottom of the wound, inflammation of the surrounding skin is arrested, and a complete and permanent cure quickly follows the use of the Ointment.

Piles, Fistulas and Internal Inflammation.

These distressing and weakening diseases may with certainty be cured by the sufferers themselves, if they will use Holloway's Ointment, and closely attend to the printed instructions. It should be well rubbed upon the neighbouring parts, when all obnoxious matter will be removed. A poultice of bread and water may sometimes be applied at bed time with advantage; and most scrupulous cleanliness must be observed. If those who read this paragraph will bring it under the notice of each of their acquaintances whom it may concern, they will render a service that will never be forgotten, as a cure is certain.

Rheumatism, Gout & Neuralgia.

Nothing has the power of reducing inflammation and subduing pain in these complaints in the same degree as Holloway's cooling Ointment and purifying Pills. When used simultaneously they drive all inflammation and depravities from the system, subside and remove all enlargement of the joints, and leave the sinews and muscles lax and uncontracted. A cure may always be effected, even under the worst circumstances, if the use of these medicines be persevered in.

Eruptions, Scald Head, Ringworm & other Skin Diseases.

After fomentation with warm water, utmost relief and speediest cure can be readily obtained in all complaints affecting the skin and joints, by the simultaneous use of the Ointment and Pills. But it must be remembered that nearly all skin diseases indicate the depravity of the blood and derangement of the liver and stomach, consequently, in many cases, time is required to purify the blood, which will be effected by a judicious use of the Pills. The general health will be readily improved, although the eruption may be driven out more freely than before, and which should not be promoted; perseverance is necessary.

Sore Throats, Diphtheria, Quinsy, Mumps & all other Derangements of the Throat.

On the appearance of any of these maladies the Ointment should be well rubbed at least three times a day upon the neck and upper part of the chest, so as to penetrate to the glands, as salt is forced into meat; this course will at once remove inflammation and ulceration. The worst cases will yield to this treatment by following the printed directions.

Scorfula or King's Evil and Swelling of the Glands.

This class of cases may be cured by Holloway's purifying Pills and Ointment, as their double action of purifying the blood and strengthening the system renders them more suitable than any other remedy for all complaints of a scorfulous nature. As the blood is impure the liver, stomach and bowels, being much damaged, require purifying medicine to bring about a cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs.	Chapped Hands.	Scalds.
Bad Breasts.	Contracted and Stiff Joints.	Sore Nipples.
Burns.	Elephantiasis.	Sore Throats.
Bunions.	Fistulas.	Skin Diseases.
Bite of Mosquitoes.	Gout.	Scurvy.
and Sand-Flicks.	Glandular Swellings.	Sore-heads.
Coco-hay.	Ungs.	Tumors.
Chiefo-foot.	Lumbago.	Ulcers.
Corns (soft).	Wounds.	Yaws.
Cancers.	Rheumatism.	
Chilblains.		

Sold at the establishment of PROFESSOR HOLLOWAY 24, Strand, (near Temple Bar) London; and by all respectable Druggists and Dealers in Medicines throughout the civilised world, at the following prices:—1s. 1jd., 2s. 9d., 4s. 6d., 11s., 22s., and 33s. each Pot.

*There is a considerable saving by taking the larger sizes.

N.B.—Directions for the guidance of patients in every disorder are affixed to each Pot.

PROSPECTUS OF THE

BRITISH COLUMBIA

COAL MINING COMPANY!

[LIMITED].

Incorporated under the Joint Stock Companies' Act, 1856, which limits the liability of each Shareholder to the amount of his Shares.

CAPITAL - - - - - \$100,000,
IN 2000 SHARES OF \$50 EACH, WITH POWER TO INCREASE.

100 A. SHARES have been issued as paid up shares to the promoters of the company, as the consideration paid them for their right to 600 acres of land, &c. The remaining 200 A. shares are reserved for the general benefit of the company. 700 B. shares to be issued to subscribers, subject to payment of \$2 per share at the time of subscription, and of calls of \$1 per share, per month, until \$15 in all shall have been paid, when the subscribers shall be entitled to certificates of fully paid up stock. The remaining 1000 C. shares are reserved for issue at par when the Coal Mine is sufficiently explored and proved.

DIRECTORS:

CAPTAIN JAMES COOPER, Chairman;
Hon. J. A. R. HOWER, M.L.C.
JOHN ROBINSON, Esq.,
SEWELL P. MOODY, Esq.,
JOSIAS C. HUGHES, Esq.,
W. CLARKSON, Esq.,
GEORGE DIRTZ, Esq.,
JAMES VAN BRAMER, Esq.,
W. J. ARMSTRONG, Esq.,
JOHN PICKAVANT CRAWFORD, Esq.

AUDITOR:

THOMAS MCKINCKY, Esq.

BANKERS:

THE BANK OF BRITISH COLUMBIA.

SECRETARY:

WILLIAM CLARKSON, Esq.

This company is organized for the purpose of exploring and mining for Coal, and boring for Coal Oil. The character of the sandstone at Burrard Inlet, its identity with the coal-bearing sandstone of Bellingham Bay and Nanaimo, and the numerous indications of Coal to be found at different places on the Inlet and on English Bay, make it nearly certain that Coal measures similar to those of Bellingham Bay and Nanaimo will be found at a reasonable depth.

The company have secured a reserve of 400 acres on Coal Harbor, Burrard Inlet; also a right to mine on 600 acres on English Bay, giving to the company a coal field of 1200 acres in extent, and the British Columbia Government has pledged its support in every reasonable way.

It is the intention of the company to immediately put down a bore for Coal—the strong probability being that in less than 90 days the ground will have been prospected and the company ready to sink a shaft and open a mine.

If the Coal croppings at English Bay or Burrard Inlet should be succeeded, as is usually the case, by thicker seams below, it must become an invaluable property. The position of English Bay and Burrard Inlet renders the harbors easy of access in all winds and seasons. The shore is bold, so that no long wharves or tramways would be needed, while the prices of Coal on the Pacific—averaging from two to three times the prices on the Atlantic—render the prosecution of Coal mining one of the most promising enterprises of the day.

The whole of the B. shares are now offered for subscription. The monthly calls on these will be adequate to meet the current expenses of prospecting; the subscribers to these shares incur a small risk, but they get a compensation—a \$50 share for the small sum of fifteen dollars.

Parties desirous of obtaining shares may be furnished with every information by applying to the Secretary, at the company's office, in New Westminster.

The company have engaged Mr. John Dick, a practical coal miner of many years' experience both in Scotland and Vancouver Island, to prospect and examine the locality of English Bay and Burrard Inlet. The annexed is his report:—

"To the Board of Directors of the British Columbia Coal Mining Company, Limited.

GENTLEMEN.—After a careful examination of several square miles of the country lying to the southward of Burrard Inlet, I take pleasure in being able to state that, although owing to the general regularity and unbroken nature of the beds of strata there visible I have not been able to discover the outcroppings of any coal seam worthy of note; still there is every indication of the existence of such a seam at no great depth—say from 40 to 60 fathoms. Should my surmise prove correct there is no doubt, judging from the very trifling angle of dip and its freedom from faults and other dislocations (of strata) that the field will be quite equal in extent to any yet discovered on Vancouver Island.

For the purpose of further proving the quality of the Coal and its depth from the surface, I would recommend that a series of borings be commenced at such places as, after further deliberation, I shall be prepared to point out. I am, Gentlemen,
Your obedient servant,
JOHN DICK.

NEW WESTMINSTER, WEDNESDAY, OCT. 18, 1865.

OUR PROSPECTS.

The news which we published on Saturday, respecting the gold fields just opening up in the Bridge River country, on the one hand, and the Big Bend country, on the other, will have been read with joyful avidity by many, and, doubtless, with sneering unbelief by some. Like the boy in the fable, the cry of "the wolf, the wolf" has been so often raised, especially in the neighboring colony, and proved to be little better than a false alarm, that now, when important discoveries of substantial new gold fields are announced, it is scarcely matter of surprise that people should have become somewhat skeptical. Indeed six years' experience in the country has sufficed to teach us to receive with very great caution reports of new discoveries. The news which it has been our pleasing duty to publish within the last week or two, comes to us, however, in a form which leaves no reasonable ground for doubt. The revolution which these discoveries are undoubtedly destined to bring about in the mining, commercial and agricultural interests of the country is very great. Paradoxical as it may appear, Cariboo has been at once the great wen and the mainstay of the colony. Cariboo has been almost synonymous with British Columbia. It has been the fabulous land of Ophir to which all have eagerly rushed, the centre towards which legislation has converged, the grave of many a golden dream and ruined constitution. With the masses it has been "Cariboo or nothing," and, unfortunately, its treasures are buried far too deep to be available to more than a few. The result has been that, while the famous Williams Creek has been steadily yielding up its millions every year, it has not afforded profitable employment to half of those who have been lured thither by the fascination of its known wealth. Yet an unaccountable infatuation appears to have bound the gold-seeker to its charmed banks. A season of disappointment, nay, of semi-starvation, within that "charmed circle" has been preferred to moderate pay in less tempting diggings. But while Cariboo proper will doubtless maintain its prestige for many years to come, and continue to be the favorite field for the capitalist, the new gold fields which have just been discovered to the north of it, to the south of it, to the east of it and to the west of it will break that fatal spell which has hitherto operated so injuriously to the miner and to the country at large. A great breadth of ground, easy of access, possessing the important advantage of a superior climate, and where every man who can lay in a week's "grub" and a "rocker" cannot fail, with ordinary industry, to earn from ten to thirty dollars a day, will undoubtedly draw off the redundant population of Williams Creek, while it may be reasonably expected to attract a considerable immigration from abroad. It requires no very keen perception to comprehend the advantages which must flow from the altered state of things we have thus imperfectly indicated. That diggings which will yield fair remuneration to the masses would be better for all parties than the costly, and uncertain, though enormously rich ground of Williams Creek will be readily understood. If fifty men raise as many thousand dollars in the season the country receives infinitely more benefit than would accrue from the same amount being taken out of one rich claim. This proposition is so self-evident that argument would be superfluous. The fortunate Williams Creek miner, who takes out his fifty thousand dollars, almost invariably leaves the country with as little delay and expense as possible. But distribute that fifty thousand dollars amongst fifty miners, and they not only consume fifty times as much as the other, and, consequently, contribute fifty times as much towards the revenue, but they are very much more likely to remain in the country. We have hinted at the good effects of our new gold fields in a commercial point of view. The business of supplying the Cariboo miners has proved a "game of hazzard." To open and work a claim there is an expensive undertaking, eventuating in a fortune or in bankruptcy, according as the claim may chance to be rich or worthless. In this way the merchant risks almost as much as the miner himself, and thus greater profits

must be charged, and greater losses made. But to supply miners engaged upon such diggings as those found in the Big Bend country, and especially in the Bridge River country, will partake of no hazzard, beyond what everywhere appertains to commercial transactions. The miners will need no credit, because they will take out gold every day, and "wash up" every night. Thus the miner will no longer be under the thumb of the trader, and the trader at the mercy of the Victoria supplier, as is so largely the case at present. The commerce of the country will, in fact, be emancipated, and free to flow in the more legitimate and natural channels. Nor should the agricultural feature of our subject be lost sight of. Cariboo, situated as it is in the sterile and mountainous regions of the north, is in a great measure cut off from the influence of husbandry. Once the gold is all dug out it wouldn't bring a crooked six-pence, if sold to the highest bidder. All that has been expended in making roads to it, beyond a certain point, would utterly cease to yield any benefit. With some of our newly discovered gold-fields, however, the case is altogether different. Contiguous to, nay, in some instances, in the very midst of agricultural lands, capable of sustaining a large population, they would at once tend to the enrichment of those engaged in working them, and, what is of far greater importance, the permanent settlement of the country. To work mines within hail of the farm house—within hearing of the lowing kine, and the song of the milkmaid, even if those mines did not yield more than good, round wages, would be far more satisfactory to all parties, and would conduce to the permanent progress of the country in a far greater degree than would the expensive and hazzardous work of gold mining on Williams Creek. While the latter will doubtless continue, for many years to come, to be the richest gold-field, perhaps, in the whole world, and while it will, with its magnificent system of roads, and the great facility which exists for conveying machinery thither, be the most attractive and the most remunerative field for the capitalist, it is to the former that population will chiefly resort. They will undoubtedly be the diggings for the poor man—for the masses, in fact; and to them will the attention of the Government necessarily be largely directed for some months to come.

ARRIVAL OF THE "ONWARD."—The *Onward*, Capt. Irving, arrived from Yale on Monday evening, bringing 50 passengers, amongst whom were the Hon. A. N. Birch, Admiral Denman and Mrs. Denman, Hon. J. W. Trutch and others. M. Malcolm Munro, contractor for the Cottonwood road, came down. We regret to learn that Mr. Munro has lost by the contract and is unable to finish the road, owing to extremely unfavorable weather. We believe the Government will at once complete the road, under the management of Mr. Spence.

CUSTOMS RECEIPTS for week ending Saturday, Oct. 14th, 1865: Duties (import), £1,179 10 10; do. (export), £569 0 4; harbor dues, £10 5 6; headmoney, £16 4; tonnage dues, £98 6 10. Total, £1,873 7 6. Number of passengers entering at this port during same period, 11.

THE INVALID'S FRIEND.

HOLLOWAY'S PILLS.

Nervous Disorders.

What is more fearful than a breaking down of the nervous system? To be excitable or nervous in a small degree is most distressing, for where can a remedy be found? Here is one:—Drink but little wine, beer or spirits, or far better, abstain from them altogether; do not take coffee—weak tea is preferable; get all the fresh air you can; take three or four of these Pills every night; eat plenty of solids, and avoid the use of slips. If these golden rules are followed, you will be happy in mind, strong in body, and forget you have any nerves.

Mothers and Daughters.

If there is one thing more than another for which these Pills are so famous it is their purifying properties, especially their power of cleansing the blood from all impurities, and removing dangerous, and renewing suspended secretions. Universally adopted as the one grand remedy for female complaints, these Pills never fail, never weaken the system, and always bring about what is required.

Disorders of the Kidneys.

In all diseases affecting these organs, whether they secrete too much or too little water; or whether they be afflicted with stone or gravel, or with aches and pains settled in the loins over the region of the kidneys, these Pills should be taken according to the printed directions, and the Ointment should be well rubbed into the small of the back at bed time. This treatment will give almost immediate relief after all other means have failed.

The Stomach out of Order.

No medicine will so effectively improve the tone of the stomach as these Pills; they remove all acidity, occasioned either by intemperance or improper diet. They reach the liver, and reduce it to a healthy action; they are wonderfully efficacious in cases of spasms—in fact they never fail in curing all disorders of liver & stomach.

Bronchitis, Diphtheria, Coughs, Colds.

No diseases are more frequent, few more dangerous, than affections of the respiratory organs. The first symptoms of disordered action may always be removed by Holloway's renowned Pills. They quickly remedy any temporary stagnation of blood, relieve any over-gorged veins, moderate the hurried functions, and enable the windpipe and lungs to perform their functions with ease and regularity. These Pills, by their purifying powers, cleanse the blood from all impurities, and thus fortify the system against consumption, asthma, and other pulmonary complaints.

Debilitated Constitutions.

In cases of debility, languor and nervousness, generated by excess of any kind, whether mental or physical, the effect of these Pills is in the highest degree bracing, renovating and restorative. They drive from the system the morbid cause of disease, re-establish the digestion, regulate all the secretions, brace the nervous system, raise the patient's spirits, and bring back the frame to its pristine health and vigour.

Biliousness, Loss of Appetite, Head-ache and Lowness of Spirits.

These Pills effect a truly wonderful change in debilitated constitutions as they create a healthy appetite, correct indigestion, remove excess of bile, and overcome giddiness, headache, and palpitation of the heart.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague	Female Irregularities	Retention of Urine
Asthma	Fever of all kinds	Scrofula, or King's Evil
Bilious Complaints	Head-ache	Sore Throat
Blotches on the skin	Indigestion	Stomach and Bowel Disorders
Bowel Complaints	Inflammation	Tic Douloureux
Colic	Jandice	Tumours
Constipation of the Bowels	Liver Complaints	Ulcers
Consumption	Lumbago	Veneral Affections
Debility	Piles	Worms of all kinds
Dropsy	Rheumatism	Weakness, from whatever cause
Dysentery		&c., &c.
Erysipelas		

Sold at the establishment of Professor Holloway, 244, Strand, (near Temple Bar) London; also by all respectable Druggists and Dealers in medicines throughout the civilized world, at the following prices:—1s. 1ld., 2s. 9d., 4s. 6d., 11s., 22s., and 33s. each Box.

* There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box.
